1. What drew you to the MPP program? What interests you in this position?
2. This position involves collaboration with other programs and their staff. Please describe the skills and qualities you bring to a collaborative environment.
3. It is important that the MPP program serves all of our students, staff, faculty, and alums, and not just those from shared or dominant cultural perspectives. What are some of your favorite strategies for creating belonging?
4. What is one policy that you think could change the world for the better?
