

Tuition Benefit Notification Form

Tuition benefit is managed through the program in which a student is earning their masters or doctorate degree, even if the assistantship or fellowship is funded by another area of the college or division. Students earning GR, TA, or GF from other departments will need their graduate advisor to seek approval from the Graduate School for students earning benefit outside of their academic department. For students earning their tuition benefit support from another area, please complete this form and submit to your graduate advisor.
